Professional Summary

Frontend / React Developer with hands-on experience building real-world projects using React.js, JavaScript (ES6+), HTML, and CSS. Strong understanding of component-based architecture, REST API integration, and responsive UI development. Built and deployed multiple projects using Vercel and Netlify. Actively seeking a Frontend / ReactJS Internship to gain industry experience and contribute to production-level applications.

Technical Skills:

Frontend:
- React.js, JavaScript (ES6+), HTML5, CSS3
- Tailwind CSS, Flexbox, CSS Grid
- Redux Toolkit, REST API Integration

Tools & Deployment:
- Git, GitHub
- Vercel, Netlify

Other:
- UI Debugging, Responsive Design
- Basic Data Structures & Algorithms

Projects

E-Commerce Website
- Built reusable React components for product listing, cart, and checkout flow.
- Integrated REST APIs for product and cart operations.
- Implemented responsive UI and fixed cross-browser issues.
- Deployed frontend using Vercel..Live: https://e-commerce-saxl.vercel.app | GitHub: https://github.com/malviakash7666/E-commerce

Job Portal
- Developed React-based UI for job listings and user profiles.
- Connected frontend with backend REST APIs.
- Improved UI responsiveness across devices.
- Deployed application on Netlify.Live: https://job-find-app.netlify.app| GitHub: https://github.com/malviakash7666/backend_job_seeking

Personal Portfolio Website
- Built a fully responsive personal portfolio using HTML, CSS, React.js, and Tailwind CSS.
- Optimized layout for mobile, tablet, and desktop screens.
- Used clean UI design to showcase projects and technical skills clearly.
